## ABOUT ME

Motivated Computer Science & Engineering graduate from Notre Dame University Bangladesh specializing in software development and data analytics. I am proficient in building web apps by using the MERN stack. Besides, drawing insights from data is something I really enjoy!

## EDUCATION

### B.Sc. in Computer Science & Engineering [2019 - 2023]

Notre Dame University Bangladesh

### Higher Secondary Certificate (HSC) [2017 - 2019]

Notre Dame College, Dhaka

### Secondary School Certificate (SSC) [2007 - 2017]

St. Gregory's High School & College

## PROJECTS

### Real Estate Management System

- This web app was built by using the MERN stack.
- Features: Login system, Admin dashboard, CRUD application, Pagination, etc.

### ChatGPT Clone

- This chat app was built by using Next.js and OpenAI's API.
- Features: Login system, New chat, Chat storage, Loading animation while processing chats, etc.

### Blogging Web App

- This web app was built by using PHP and MySQL.
- Features: Login system, categorizing, CRUD application, Admin dashboard, etc.

## EXPERIENCE

### Treasurer

### Notre Dame University Bangladesh Computer Club

#### June 2021 - Present

- At NDUBCC I gained proficiency in Microsoft Excel by building the club's ledger and monthly reports.
- I also managed multiple teams and organized various events.
